Office Live UX v3

This screenshot shows the Microsoft Office Live UX v3 Vision interface. The main window displays a dialog titled "Add Address Book..." with the sub-instruction "Select a Web Service or Program from the left to scan for contacts." Below this, it says "You do you not see your choice, select the Add another source... option." On the left sidebar, there's a "Workspaces" section with various filtering options like "By Date" and "By Person". A central column lists several web services: Outlook, Gmail, LinkedIn, facebook, monster, and YAHOO!. At the bottom of this list is a link to "Add another source...". To the right of the main content area, there's a "DeskSort" panel and a "Add Viewers..." panel. The "Add Viewers..." panel includes links to Microsoft Office Live, facebook, LinkedIn, and Y! MESSENGER, along with an "Add" and "Cancel" button. The bottom of the screen features a standard Windows taskbar with icons for Start, Internet Explorer, and the Office Live UX v3 application.

Stacy,

Can you tell me if I added the right people to this Workspace? I can't tell because I don't remember their last names... Thanks!

TODAY -- 4:15 PM

Mia,
Can you tell me if I added the right people to this Workspace? I can't tell because I don't remember their last names...

Thanks!
